

Gentlemen/Ladies:

I've been a tax paying law abiding citizen of Indiana for over 40 years and only within the last year, because of Indiana's Telephone Privacy law, have I been able to enjoy my evenings at home without nightly intrusion of unsolicited phone calls from every conceivable peddler. Indiana has a great law limiting these unwanted phone calls. You won't hear me say many nice things about our State Government, but concerning the Telephone Privacy law, I give them an A+. Please do not mess up a good thing for Indiana citizens. Leave well enough alone. I'm old fashioned and believe that if it ain't broke it don't need fix'en.
